

### What is

# Low-Level Light Therapy?

Originally researched and developed by NASA, low-level light therapy is the application of light energy to the body to obtain therapeutic benefits. It produces a natural photobiochemical reaction similar to the process of plant photosynthesis, and has a wide range of beneficial applications across many medical fields, including the treatment of skin, muscle, joint and pain conditions.

## 1 device - 3 applications

- Treats skin, muscle, joint & pain conditions
- Proven NASA researched technology
- Whole body wellness system
- Use anywhere on the body
- Unique patented design
- 3-in-1 device

FDA-cleared.

# Inspired by light, proven by science.

Acne | Wrinkles | Pain

"The day may not be far off when most homes will have a light source (most likely a LED device) to be used for aches, pains, cuts, bruises, joints, and which can also be applied to the hair and even transcranially to the brain".

A clear solution for healthy pain relief.

### Safe. Proven. Effective.

Celluma light therapy works safely and effectively, without abrasive chemicals, harmful UV-rays or side effects, to destroy acne-causing bacteria — not only clearing up existing blemishes, but preventing future breakouts before they happen. In just minutes a day, you'll be on your way to a clearer, smoother, more radiant complexion.

- Non-toxic
- Effective for teenage acne
- Non-invasive
- Effective for adult onset acne

1) Before Celluma 2) Results sustained 3 months after receiving 12 Celluma sessions. No other products used.

In an observational study using Celluma to treat facial wrinkles; 80% of participants said that they experienced an improvement in skin texture, 77% reported an improvement in skin firmness and 66% reported an improvement in facial wrinkles after only 4 weeks.

"This is the best beauty and therapy product I have ever experienced. I use it four times a week for beauty, aches, back problems and pain relief" - Sally P., New York, NY.

wavelengths of light energy are absorbed by photoacceptors

in the mitochondria of compromised cells to regain and restore vitality naturally. This process increases the production of adenosine triphosphate (ATP) — the fuel that drives all cells. The resulting boost in cellular energy leads to a cascade of metabolic events which can increase micro-circulation and decrease arthritic and joint pain, muscle spasm, and muscle and joint stiffness.

## Celluma can be used by the whole family\* to affordably treat:

- Acne
- Muscle & joint pain
- Wrinkles
- Muscle tissue tension
- Arthritic pain
- Decrease inflammation
- Muscle Spasm
- Increase micro-circulation
- \* Not for use by children under 12 years.

"I love my Celluma! I ordered my LED therapy panel after a severe injury left me bed-ridden for months. I've noticed an increase in my progress and pain management since using it. I've been using it on my face as well. It always puts me in the deepest, calmest trance". — Jessie Ennis, Actor (Veep) & Director, Los Angeles, California.

"Hi, I wanted to let you know that my husband and I are personally OBSESSED with the Celluma, it has helped our pain and my acne so much that we cannot believe it!!!!!"

— Tari Dominy Sicairos de Vomaske. Owner, Allure Skincare & Lash, Denver, CO
